FOREST FIRE HORROR

It Is Just Now Dawning in Its Awful Magnitude.

BURYING THE DEAD BODIES.

Huge Trenches Dug in Which the Remains of the Unidentified Dead Are Placed—It Is Now Believed That 379 People Perished—Fires Still Burning in Pennsylvania—Forest Fires Elsewhere.

ST. PAUL, Sept. 5.—The Hinckley horror is dawning in its awful magnitude. There are now lying in the desolate cemetery, under a shallow covering of sand or in the rude, rough boxes, which take the places of caskets, 216 bodies. F. G. Weber of Pine City, who has had entire charge of the interment, has had his work well in hand and has kept most accurate accounts of the bodies. These figures are his, and include those buried by friends.

Four trenches in all have been opened, separated by about four feet. Commencing on the south, in the north trench, are 45 unboxed corpses. In trench No. 2 are 20 boxes, many containing from two to five bodies. This trench is not yet closed. In the third are 27 boxes like the others. The fourth trench is not yet in use, but there are piled up 19 boxes which will be put in as soon as possible.

The foreman of the construction train has reported to Coroner Irwin that in the hill at the north end of the bridge across the Grindstone were nine bodies completely incinerated so that the sex could not be distinguished.

A few rods west of where the Duluth depot stood was found the body of a woman. To this must be added the few bodies shipped out, the two buried by Jim Hunt's party, four interred by another explorer, Stantle, by name, making the total of about 225 accounted for in Hinckley and vicinity.

A mass of estimates are being made, but there is no foundation for them. There were undoubtedly settlers and men in the lumber camps who have not yet been discovered. A search for them will be prosecuted with vigor and they will be buried where they lie. There is an unknown number of dead in the millpond. It is as yet unapproximated. The bank was covered with sawdust and edgings, and not far away was the Brennan mill and lumber yards.

A number of persons were seen to go to the mill pond. Not one came out alive, and hardly a glimpse of the south bank, where the people were, can be obtained on account of the smoke still rolling up in dense columns. It may be a day or two before this pool of death can be examined. It is full of logs, and the work of recovery will be a matter of a good deal of difficulty unless the dam is cut and the water drawn off, an expedient which may be adopted.

At Pokegama, or Brook Park, the dead have been nearly all accounted for and will not run over 25. At Miller were buried 12; at Sandstone 67. These figures, with an estimate, show those not yet found bring the total up to 379. The latter estimate may be too low, but it is a matter of absolute conjecture, and it is here that the widely different totals are found. Some think at least 200 settlers in camps are yet to be found.

There were 113 inhabitants in the township and there were probably a few other fatalities.

At Hinckley there has been considerable activity during the day. The survivors have placed the executive direction of affairs in charge of a committee, of which H. C. Davis is chairman and A. C. Hay secretary.

Lumber and supplies came up yesterday and a cook shanty, enclosed on three sides with an adjoining store-room, was knocked together. Here was installed a crew of lumber camp cooks, who prepared ham and fresh meat, coffee and bread and cheese in abundant quantities for the refugees.

FEARS FOR ANOTHER PLACE.

The Women and Children Removed to a Place of Safety.

WEST SUPERIOR, Wis., Sept. 5.—The women and children of the town of Kerrick, on the Eastern Minnesota road, 36 miles from Superior, have been brought to this city. When the train left the city was threatened with destruction by advancing fires. The men determined to stay and fight to save their homes. The train which brought the families brought nearly all the household goods of the town also.

The women and children are comfortably placed in boardinghouses. The going down of the wind, however, has delayed the danger at Kerrick for the present.

The citizens' committee clothed yesterday 100 more of the refugees from the town of Sandstone and the neighboring towns. Local subscriptions of money and clothing are coming very freely.

Another Town Burning.

EAU CLAIRE, Wis., Sept. 5.—The little city of Thorpe, on the Wisconsin Central, is burning, the result of forest fires. Help was asked for from Chippewa Falls, but could not be granted as the engines from there were still at Rib Lake, from where no news can be had. The stove mill of Cirkell & Company, at Thorpe, also a store are burned, besides several mills and dry kilns. It is not thought possible to save the rest of the place.

Danger Passed.

SPENCER, Wis., Sept. 5.—Fires have been raging in the swamps and timber about this place for the past three weeks. Yesterday, under the influence of a strong northwest wind, the fire

reached the western outskirts of the village and threatened the destruction of the entire place. Stevens Point and Marshfield were called upon for assistance, but before they arrived the fire had been gotten under control. It is now thought that the danger is passed.

RAGING IN PENNSYLVANIA.

Several Towns in Imminent Danger of Being Destroyed.

BRADFORD, Pa., Sept. 5.—The forest fires are still burning in this vicinity, and considerable damage has resulted. Doyle's Mill has called on Bradford for aid in suppressing the fires. It was reported that the flames were sweeping down upon the town from the direction of Mount Jewett, and the inhabitants had all deserted their homes. An engine was at once sent forward, but as all telephone wires are down no particulars have been received.

It is feared that camp Halsey will be destroyed.

Fire is raging all along the Erie line from Hutchins to the outskirts of Mount Jewett, and as the wind is rising it may yet get beyond control again.

McAmley's mills near Mount Jewett are in danger. So far 400,000 feet of logs have been destroyed there. A large force of men are fighting the flames and hope to prevent further loss. No estimates of losses can be made as yet.

New York Village Threatened.

DUNKIRK, N. Y., Sept. 5.—Forest fires raging south of here threaten destruction to Fredonia, which village is practically without protection, the water in the public reservoir having been nearly exhausted by long drouth. Thousands of dollars worth of property has gone up in smoke.

FOREST FIRES CAUSED IT.

The Peculiar Haze Noticeable in So Many States.

WASHINGTON, Sept. 5.—The peculiar haze noticeable in the sky all over the country for the last week or so has been a matter of great interest to meteorologists, and many experiments have been going on in different observatories to determine its cause and nature. The weather bureau officials have been making observations, and the opinions of two of the professors is given to the public.

Professor Henry A. Hazen says: "The conditions east of the Mississippi river are unquestionably due to forest fires, just as in 1871 and 1881. The forest fires this year have been much more serious than common owing to the drouth that has existed. The atmosphere has been very dry, and extends to enormous heights."

Professor Cleveland Abbe of the weather bureau, who has made a special research into this smoke phenomena, says:

"I begin to-day a collection of all the data the weather bureau has relative to the spread of the haze which now covers the greater part of the United States."

"Early in July I began to receive reports of forest fires and large areas of smoke in Minnesota, Wisconsin and upper Michigan. Since then reports have come from lower Michigan, New York and Pennsylvania. There is every reason to believe that all of the smoke haze which now covers the country is the result of the diffusion of smoke of burning forests and crops."

"This smoke from the forest and prairie fires is diffused perceptibly to a greater distance than many people imagine possible. About the time of the great Chicago fire there were also extensive fires, whose smoke was carried rapidly and directly eastward, and within two weeks' time was reported by numerous vessels in a continuous series from our Atlantic coast more than half way over to Africa."

"In some parts of the country it has been reported that owing to the variety of this cloud of haze, injurious frosts have been prevented. In other parts of the country haze is said to have mitigated the heat of the sun so as to have favored, to a small extent, the growth of corn and other crops especially injured by a long drouth."

Small Hamlet Reported Destroyed.

WILLIAMSPORT, Pa., Sept. 5.—It is reported here that English Center, a small hamlet in Lycoming county of 2,000 inhabitants, has been destroyed by forest fires, but all the wires are down and the report can not be confirmed. It is also reported that destructive fires are running near Kane, and that the losses there are very heavy. Thus far no life has been reported lost.

OUTBREAK PREVENTED.

Convicts Plot to Break Out of the Kentucky Penitentiary.

FRANKFORT, Ky., Sept. 5.—News of a threatened outbreak at the penitentiary has just been learned. The Hatfield-McCoy gang of Pike county, and Jasen Little of Breathitt, all desperate lifemen, were concerned in the plot, which was made known to Warden George Sunday by a prisoner who chanced to overhear the plotters talking.

It was their purpose to make the attempt this week as the guards and prisoners were going to supper. With four large knives, made from files ground to a keen edge and point, they intended to kill the shop guards, Tanner and Ireland, take their weapons, kill the gate guard on the wall between the male and female yards, and make their escape by passing over the wall.

The warden placed the plotters in irons and in separate cells. All soon confessed, each believing the others to be traitors, except Wick Tallent, who held out for 30 hours before he revealed the hiding place of the knives. Besides Little and Tallent, George West, Hockenheimer, McCoy, Cook and a dozen others are known to have been in the plot.

BIG STRIKE RENEWED

Trouble Breaks Out Again in the Coke Region.

THE CONNELLSVILLE FIELD.

Plants All Idle Once More—Dynamite Bombs Used in Getting the Men to Come Out—The Strikers Have an Inexhaustible Supply of Explosives—Armed Men Already on the Ground.

UNIONTOWN, Pa., Sept. 5.—In this end of the Conneltsville field, the coke men came out yesterday again, and nearly all the plants south of this place are idle once more. Before the old hands went back and pleaded poverty and peaceful intentions to the operators they had an understanding with their fellows that they would go back long enough to displace the colored men and drive them out of the region, which would enable the original strikers to get control again.

Early yesterday morning the men began to gather at the Brownfield works for the parade. Marching from plant to plant the strikers kept tramping and cheering, and calling out men at work at the ovens until nearly every plant in the southern end of the region were deserted.

As a possible intimation of what might be in reserve in case coaxing failed to call out the men at work the strikers fired dynamite bombs at each place visited.

They seemed to have an inexhaustible supply of explosive, and were prodigal in its use. The firing created more excitement than the marching, and music and shouting of the strikers.

Deputy Sheriff Hurst, with a force of armed men, has been sent into the southern end of the county in anticipation of trouble.

CONSTABLE KILLED.

Shot Down by a Horsethief That He Had Captured.

ST. LOUIS, Sept. 5.—A special to The Republic from Carrollton, Mo., says that Hurley Goin, a horsethief, who was being brought here from Chillicothe, shot and killed Constable William Hall of Hill township, yesterday, with the latter's revolver, when about 16 miles northwest of here.

Goin then attempted to shoot Hall's father, but was prevented by Justice Runyan, who wrested the revolver from Goin's hand. Goin ran and was shot at four times by Runyan, one shot taking effect in his hand. Goin escaped to the timber. A posse was quickly organized and he was captured. With difficulty he was taken from the infuriated people and brought to jail at this place.

Imperiled Miners.

MOWEQUA, Ills., Sept. 5.—A serious accident happened yesterday at the Assumption coalshaft, about 7 miles south of here. In lowering a cage the wire cable broke and the cage fell to the bottom, demolishing everything in its way. The shaft is zigzag and about 1,000 feet deep. The engineer, losing control of his engine, let the upbound cage go up through the roof of the shafthouse, carrying complete destruction in its path. The whole side of the engine room was torn out and the cable drums were wrecked. Twelve men at work below were not taken out for several hours. As no airshaft exists, they were in a perilous position.

Pistol in a Powder Can.

DUQUOIN, Ills., Sept. 5.—George Johnson was killed at mine No. 3 by an explosion of a powder can. Before he died Johnson said he had heard the report of a pistol in the can before it exploded. On examination the pistol was found, with a string fastened to the trigger and also the cork used as a stopper to the can. No one has yet been arrested for the dastardly crime, but every clew will be followed up. Johnson, it is learned, had trouble with a man named Van Clark, who had charged Johnson with criminal intimacy with his wife.

Governor Waite Quarantines.

DENVER, Sept. 5.—A quarantine proclamation against Oklahoma has been issued by Governor Waite because New Mexican herds are being driven into the strip with the intention of bringing the quarantined cattle into Colorado. New Mexico will probably retaliate with a quarantine against Colorado sheep.

Predicts a Hot Campaign.

INDIANAPOLIS, Sept. 5.—Governor Matthews in an interview says that he will spend three days of every week in the campaign, making speeches for his Democratic brethren. Other state officials will take the stump. The governor predicts a hot campaign in Indiana.

On Both Tickets.

PUEBLO, Colo., Sept. 5.—John C. Bell of Montrose, renominated for congress Monday by the Populists of the Second district, was also nominated by acclamation by the Democratic convention yesterday afternoon as in 1892.

Gave Himself Up.

ANDERSON, Ind., Sept. 5.—Louis Louck, a Marion glassblower, and one of the seven prisoners who sawed their way out of the Grant county jail last Thursday, gave himself up to Sheriff Van Dyke.

Mysterious Fire.

UNION CITY, Ind., Sept. 5.—Fire destroyed property in this place valued at \$85,000. The origin of the fire is a mystery. The loss is due largely to inadequate protection from fire.

AN A. R. U. DEMURRER.

Seeks and His Associates File Many Complaints.

ST. LOUIS, Sept. 5.—The American Railway union, Eugene V. Debs and others, defendants in the injunction cases growing out of the late strike, by their counsel, have filed a demurrer to the bill of complaint, introduced by the government. In their demurrer, the defendants demur on the following grounds, among others:

That the court has no jurisdiction of the subject.

That the complainant has not the legal capacity to bring this action.

That no act of congress authorizes any action by the United States against persons with whom it has no contractual relations in that regard to enjoin the abstraction or retarding of the United States mail, and the United States has no power or authority so to proceed.

That no act of congress authorizes an action or proceeding in equity by the United States against those not common carriers to enjoin the hindrance, interference with or destruction of trade or commerce among the several states, and the United States has no power or authority so to proceed.

That the court has no power to enjoin any offense against the penal laws of the United States.

That any act of congress purporting to give a court of equity power to enjoin any offense against the penal laws of the United States is in conflict with the fifth and sixth amendments to the constitution of the United States.

DISCOVERED JUST IN TIME.

A Plucky Farmer Saves a Train From Being Wrecked.

ST. PAUL, Sept. 5.—The morning train from Chicago on the Wisconsin Central, was saved from a bad wreck near Stevens Point by a plucky farmer. The train was approaching Stevens Point at 2 o'clock when signalled by a flame that quickly went out. On stopping the train it was found that wreckers had been at work, but were discovered and frightened away by a man living near, who then tore off his shirt and lighting it, stopping the train.

It appears that about midnight a gang of men went to work and derailed the track for the length of three rails, tearing off the fishplates and drawing spikes. They left their tools behind them. The rails had been loosened but not removed, and the train passed safely across at a slow rate. Right at this point is a high precipice or embankment, and it was the evident intention to ditch the train and hurl it down the incline. The escape was providential. The sheriff at Stevens Point was notified and the train proceeded on its way to St. Paul, where it arrived on time. No clew was had to the miscreants, nor was there any knowledge of their motive in wrecking the train.

EX-SECRETARY ELKINS ILL.

An Attack of Erysipelas Renders His Condition Precarious.

WHEELING, Sept. 5.—A special from Elkins says that ex-Secretary of War Elkins is lying at his home in that place with an acute attack of erysipelas. His condition requires absolute rest and quiet, even visitors who are guests in his house, among them ex-President Harrison, are not permitted to see him. The Republican convention which is to nominate a candidate against Congressman W. L. Wilson, meets at Elkins today, and the town is packed with delegates. Mr. Elkins' inability to participate is a great disappointment to him. There is a movement to nominate him, but he is doing all he can to head it off.

Tree Fell on a Camping Party.

POINT AREAN, Cal., Sept. 5.—A party from San Francisco, including W. W. Higginson, second officer of the steamer Oakland, his wife and daughter, William Spohn and Ed Reed, were camped on Garcia river, 10 miles from this place. Early yesterday morning they were awakened by the cracking of a large redwood tree. The men ran, but the ladies stopped to dress. The tree fell over both tents, killing Mrs. Higginson and her daughter Sadie, and breaking a leg each of Spohn and Reed.

One Thousand People Made Homeless.

ST. PAUL, Sept. 5.—A Mason City (Ia.) special says: The town of Dows, in Wright county, population 1,000, was wiped out by fire last night, only two business buildings remaining, and a good share of the residences being also consumed. Fire companies from Iowa Falls and Clarion responded promptly to appeals for help, but were powerless. The loss will reach \$100,000.

Three Thousand More Strike.

NEW YORK, Sept. 5.—Employees of five of the largest sweat shops in New York clothing trade struck yesterday. The four branches of the clothing works, finishers, baisters, pressmen and operators, under the rule of this organization, number about 3,000 all told. They are said to be anxious to join the fight against the bosses.

Senator Jones a Populist.

WASHINGTON, Sept. 5.—Senator John P. Jones of Nevada, who has represented his state in the United States senate for over 21 years, has formally renounced his allegiance to the Republican party and cast his lot with the Populists. His change of policy is based almost entirely upon the question of silver.

Got What He Asked For.

VAN WERT, O., Sept. 5.—An unknown man called at the residence of Daniel Lloyd, near Gomer, during the absence of Mr. and Mrs. Lloyd, and asked their 4-year-old son for his father's pocketbook. The request was granted by the innocent child. The stranger left with the purse and \$75.

WRECK ON A BRIDGE

Remarkable Collision on the Baltimore and Ohio.

ONE MAN CRUSHED TO DEATH.

A Passenger Train Runs Into a Wild Cut of Loaded Coalcars—Part of the Train Pitched Into the River—One Span of the Bridge Carried Down—Several Fortunate Escapes.

COLUMBUS, O., Sept. 5.—A remarkable collision occurred on the Baltimore and Ohio, just west of this city, at 11 o'clock last night. A wild cut of 10 loaded coalcars, which started east of the city, two miles from the scene of the collision, ran into the Baltimore and Ohio Cincinnati and Pittsburgh express, due here at 11:05, on the bridge over the Olentangy river.

The cut of cars had come down a long grade and was running about 40 miles an hour. The engine of the passenger train plowed under the coalcars and went off the bridge into the river, pulling the baggagecar with it. The sleeper and two day coaches became uncoupled and remained on the track. One span of the bridge was carried down and the coalcars piled upon the engine in the river.

William Herbert, the fireman, of Newark, O., was crushed to death under the engine.

Joseph Smallwood, the engineer, was hurled out into the river and escaped with several bad cuts and other injuries.

Leonard Rhodes, express messenger, of Columbus, and P. L. Sutor, baggage-man, of Newark, O., were caged in the baggagecar and their escape with slight injuries was miraculous, as was also that of William Millbaugh, brakeman, of Newark.

A water tank in one of the day coaches fell on Burniss Burton, 11 years old, traveling with her mother from Marshall county, Kan., to Danville, O., and broke her leg. No other passengers were hurt beyond a few scratches and bruises.

A LUCKY AERONAUT.

His Parachute Would Not Open, Yet He Is Still Alive.

FORT WAYNE, Sept. 5.—A most thrilling affair took place during the Labor day exercises at Cantleaver park. H. M. Williams of Sturgis, Mich., was engaged to make a parachute descent. The balloon, filled with hot air, ascended to over 3,000 feet, with Williams on the trapeze. According to program he slid down a rope 200 feet before pulling the line to release the parachute, when, to the horror of the immense crowd, it failed to open. Williams could be seen attempting to climb, hand over hand, up the rope to get at the parachute, when the balloon began to descend rapidly and landed in a heavy grove. Williams was bruised some, but not seriously hurt. The line became wrapped around the trapeze bar and he could not loosen it. He says he experienced intense agony until he landed on the tree top, as he feared the balloon, from his weight being on one side of it, would turn over and drop to the ground.

THE NINA NOT LOST.

Captain Frietsch and His Little Craft Were All Right Aug. 26.

BALTIMORE, Sept. 5.—Capt. Frietsch, who sailed from New York four weeks ago for Queenstown alone in the fore-and-aft schooner Nina, a tiny craft of 24 feet on the keel, was spoken Aug. 26 by the Atlantic Transport line's steamer Menantic, which arrived in Baltimore yesterday.

The lone mariner told the people on the Menantic that he was in the best of health and spirits and was glad to hear a human voice again. Captain Frietsch sent two letters aboard the steamship to be mailed. One was to his mother in Milwaukee.

Fire in a Poker Room.

GREENVILLE, O., Sept. 5.—About 2:30 yesterday morning fire started in the room of Brelahan's saloon, Ohio side of Union City, completely destroying the building. The flames then swept over a territory of about 10 acres, covered with buildings and factories along side of the Big Four railroad tracks. All of the buildings on this 10-acre tract were completely destroyed, many of them good and substantial, among which were the Hooke company factory and a pump works. The Greenville fire department responded to an appeal for aid and did valiant service. The loss is estimated at over \$50,000.

Man and Money Gone.

CLEVELAND, Sept. 5.—George B. Cartwright, bookkeeper for the Hughes Brewing company, has fled from this city with a young woman and a considerable amount of money belonging to his employers. Cartwright, who is about 40 years old, came here from the south last spring with high recommendations as an expert accountant, and secured a position with the brewing company. It is said that he has a wife and child in Boston.

Two Young Farmers Instantly Killed.

LEMARS, Ia., Sept. 5.—John and Thomas Walker, brothers, wealthy young farmers, were instantly killed yesterday by the falling of a bridge which they were crossing with a threshing engine near Remsen.

Mr. Wilson Sails For Liverpool.

NEW YORK, Sept. 5.—William L. Wilson, chairman of the ways and means committee of the house and author of the new tariff bill, sailed on the American liner Paris for Liverpool this morning.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.
DELIVERED BY CARRIER:
at Week 6 cents
WEDNESDAY, SEPTEMBER 5, 1894.

Fair weather, except showers on the lakes; southwest winds.

J. B. Loxe, an Illinois sheep raiser, has shipped 10,000 head of western sheep to London and sold them at a profit over the prices paid in this country. And London is the great free trade center.

Am! Here it is at last. It remained for the Hon. Will Cumbuck of Indiana to explain the cause of the recent improvement in business. In the Commercial Gazette he says "the revival of commercial activity will become more and more apparent as the time for the November elections approaches, and the prospects for Republican success come nearer the culminating point." This settles it. The settlement of the tariff question by the late Congress has nothing to do with the case.

The special sent out from Lexington last week telling about a fatal affray near Boonesboro, in which an admirer of Colonel Breckinridge stabbed an Owens man to death, was a rank fake, just as the BULLETIN concluded at the time. The Winchester Democrat says the story is utterly without foundation. Both parties to the alleged affray are still living, have never had any quarrel and are still friends. The Lexington papers that made such a parade of the fake have not yet published a correction.

WHAT A DEMOCRATIC CONGRESS HAS DONE.

When the work of the recent Congress has been summed up, the record presents a strong argument in favor of the Democrats. In answer to the question, "What has Congress done?" Jim Richardson, the Washington correspondent of the Glasgow Times, says:

It has wiped the Federal election law off the statute books. There will be no more interference in State elections by Deputy Marshals with soldiers behind them.

It has taken millions of acres of public lands from the clutches of corporations illegally holding them and restored them to the people.

It has reduced the running expenses of the Government nearly \$30,000,000.

It has given the people free wool, free lumber, free salt, free flax, free hemp, free jute and free cotton ties.

It has passed a tariff bill 50 per cent. lower in duties than the McKinley bill, only 3 per cent higher than the original Wilson bill, and which saves consumers \$141,386,000 annually.

It has passed an income tax of 2 per cent. on all incomes of over \$4,000. It has also taxed all corporations 2 per cent.

It has authorized all States to tax greenbacks and other currency, and thereby placed hundreds of millions of dollars within reach of the tax gatherer.

It reduced the protective profits of the sugar trust from 60 cents per hundred pounds to 42 cents per hundred pounds. It has taken 103 articles of use in common every-day life from the protected list and placed them on the free list.

It has taken a step, halting though that step may be, towards remedying the evils inflicted during thirty years of persistent Republican legislation in the interest of trusts, corporations and combines.

Had it not been for three or four traitors in the Senate, the Democrats would have dealt the sugar trust its death blow. They have made a splendid beginning in legislation in the interest of the people and against the protected classes.

A CARD FROM MR. TAYLOR.

WASHINGTON, KY., September 3, 1894.
To the Democratic Voters of the Washington and Tollgate Precincts: In answer to the call in Saturday's BULLETIN I thank you and all for their kindness. But that is not all. To carry one to victory every Democrat has got to vote for the candidate and work, too. It is said Mr. Forman is a safe man to vote for. Let me tell you one Republican is as safe as another. None of them will do for a Democrat to vote for. This is the only way he or any of the rest of them expect to get elected—by getting Democratic votes. Democrats are the principal ones he is electioneering with.

Be it far from me to vote any kind of a tax on the people of Mason County. The Magistrates could not do it if they wanted to. It would have to be submitted to the voters of the county.

Democrats, let me urge you one and all to stand by the ticket, whether the candidate be myself or some one else.

And another thing, you want the Magistrate right in the town of Washington. You don't want to go miles to get a warrant—and then miles to find a Constable to serve it. Thanking you again, I am, yours respectfully,

GEORGE TAYLOR.

"Last Days of the Confederacy."

General Gordon is a born orator. His voice is rounded and full, his diction eloquent and graphic, his whole manner impressive. And for substance his lecture is based upon a wealth of scenes and incidents at once new and interesting in the extreme.

No synopsis can convey the slightest idea of the superb lecture. It must be heard to be appreciated. For nearly two hours he held his audience in rapt attention. Humor, pathos and lofty eloquence were so delightfully blended that the mosaic looms all the brilliance of its colorings in the weak effort to place it in cold type. The animation, the fervid flash of the eye, the deep-meaning undulations of the voice, the striking figure itself are needed to give the words that beauty and thrilling interest in which they must be clothed to do the effort credit.—Atlanta Journal.

If you enjoy an eloquent oration, hear General Gordon at the opera house Friday night. Tickets 50 cents. No extra charge for reserved seats.

KENTUCKY SUNDAY SCHOOLS.

Nearly Four Hundred Delegates Attended the Recent Annual Convention.

The twenty-ninth annual convention of the Kentucky Sunday School Union was held at Russellville on the 28th-30th of August. Nearly four hundred delegates, representing the various sections of the State, were present. The leading denominations contributed to the make-up of the convention. No more bountiful hospitality could have been dispensed than that which was received from the hands of the beautiful little "Knob City." A convention is seldom held that awakens a wider local interest than did this. The attendance upon all of its sessions fully taxed the capacity of the spacious Methodist Church, the place of meeting. The programme was one of the best ever presented to a convention in this State. It provided for the fullest consideration of the great phases of modern Sunday school work.

The report of the Executive Committee showed good progress in all departments of the work during the past year. In the face of the "hard times" an excellent financial showing was made. There has been great advancement in the actual work of the schools of the State. There is large employment of the most approved methods. The new era in primary work is just beginning. Better preparations for teachers is being secured through a large use of the normal course of study.

It is proposed to make the thirtieth annual convention, which will be held next year at some point in the central part of the State, a memorable occasion.

LEXINGTON, KY., May 20, 1894.
It gives me pleasure to say that I am well acquainted with the character and work of Mrs. A. R. Bourne and Miss Alice Lloyd and that I think the Madison Female Institute very fortunate in securing their services in its management. They are both ladies of culture, executive ability and skill in the art of teaching. No parents in Kentucky or elsewhere need hesitate to put daughters under their care and instruction.

J. W. MCGARVEY.

LEXINGTON, KY., June 15, 1894.
To Whom it May Concern: Having learned that my friends, Mrs. Anna R. Bourne and Miss Alice Lloyd, have engaged to take charge of Madison Female Institute, it gives me pleasure to say that they are in my opinion in every way qualified for the responsible position. These ladies have had fine opportunities of learning the best methods of teaching in some of the most celebrated seminaries in the land. This, combined with rare ability and some ten or twelve years' experience in the school room, gives assurance of success in their undertaking.

Mrs. Bourne and Miss Lloyd as Associate Principals, will be aided by a corps of able teachers; and from my knowledge of their ability, energy and christian culture, I am sure they will do good service in the cause of Christian education. In this expectation I commend them and their enterprise to the patronage of the public.

ATTENTION, SURVIVORS

Of the Late Sixteenth Kentucky V. V. I.—Reunion at Augusta, Kentucky.

While time in its noiseless flight is gently leading us down through the corridor of years, freighted with the cares, hardships and exposure consequent in the carnage of war, our young lives became darkened and blighted while in the vigor of youth and young manhood. Heaven has graciously lengthened out our lives to enjoy the peace and happiness of a country united in everlasting friendship by the blood and treasure of a Nation without a peer.

Kingdoms and empires have flourished for a season and crumbled and fell. The frantic war-horse with iron hoof has crushed the maimed and bleeding soldiers while the soil ran red with the blood of countless thousands whose lives were blotted out to gain laurels and fame for despots. In the history of the world there is not a parallel to our own free and independent country. In the march of time our Nation stands pre-eminent, towering far above the nations of earth, and the envy of all the down-trodden countries of the world.

At the close of our late civil war our country was not forgetful of those who responded to its call in time of extreme peril. In the evening of life, those of us who withstood the heat and burden of the din of battle are rewarded as no other Nation has ever done for brave defenders.

Survivors of the Sixteenth Kentucky, who participated in the terrible drama above mentioned, are reminded that ere long we will again meet to mingle our voices together in sweet communion, which event will take place at Augusta, Ky., November 30th. Those who attended our last reunion held at Flemingsburg remember with pride the kind hospitality made manifest to us during our meeting within her gates. The writer is justified in saying Augusta never does anything by halves. He has on more than one or two occasions been a guest of her citizens, and he knows whereof he speaks. This article is intended more especially for the eyes of all the survivors of the Sixteenth Kentucky, scattered up and down our broad domain, wherever they may be found, with a cordial invitation to attend roll call on the 30th day of November, 1894, at Augusta, Ky.

Maysville's Mayor.

Lexington Transcript: "Will Cox, who about owns Maysville, being Mayor of the city, President of one of the largest banking institutions there, a director and part owner of the Electric Light Company, the Gas Company, the Street Railroad Company, and paying taxes on more real estate than any other person, is notwithstanding he is such a bloated bond holder, one of the most popular men in the community, as evidenced by the fact of his election as Mayor for four years by a majority of 75 against an adverse political registration of 130. One of the secrets of Bill Cox's success is his sociability and friendship for men of all classes. Jim Willis says Bill Cox is one of the best fellows living, but he hasn't a d—bit of sense politically. Cox is a Republican and Willis a Democrat."

Preacher and Politician Clash.

A special from Lexington says: "Colonel E. H. Taylor, the noted politician and distiller, and Rev. H. S. Henderson, of the M. E. Church, (South), had a sensational meeting at Frankfort Monday. On Sunday Rev. Henderson preached a sermon against Breckinridge. When Colonel Taylor met Rev. Henderson Monday he proceeded to roast him for his utterances. Colonel Taylor finally denounced the preacher and Rev. Henderson replied that Taylor was beneath the notice of a gentleman, whereupon Colonel Taylor attempted to strike him, but was prevented."

Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

LOW PRICES that are unprecedented. This can be truly said of the low prices at which I have marked my mammoth stock of ladies' and gentlemen's gold and silver watches. Murphy, the jeweler, is and has always been the leader of low prices, without sacrificing quality. Successor to Hopper & Murphy.

REMEMBER that you can secure reserved seats for the lecture of General Gordon for 50 cents to-day and to-morrow at Nelson's. The usual price of tickets is \$1. Let Maysville show that her citizens appreciate a literary treat as much as any other city in Kentucky.

A SERIOUS CHARGE.

A Young Nicholas County Physician Accused of Criminally Assaulting a Patient.

The Carlisle correspondent of the Louisville Commercial says: "This county is all agog with the sensational report that Dr. Will D. Howe, a prominent young physician and the owner of the sensational pacing mare Whirligig, that carries the world's three-year old record, had criminally assaulted Miss Lizzie Williams, sixteen-year old daughter of Shed Williams, of Moorefield. She makes affidavit to the effect that he assaulted her and accomplished his purpose against her will, she having gone to his office for treatment of deafness."

"The doctor came to town Sunday night and gave himself up, and his bond, placed at \$1,000, was quickly given by his father, W. H. Howe, a prominent merchant of Moorefield, and the examining trial is set for Friday, when some sensational testimony will be given."

"Some say it is blackmail and that the doctor will have an easy way out."

ALL WERE WELL.

The Peary Relief Expedition Heard From Again.

COPENHAGEN, Sept. 5.—The Peary relief expedition has been heard from. The Danish vessel Tjalfe, commanded by Captain Brick, has arrived here from Greenland, and the captain reports that he met the members of the expedition at Godhaven on July 17. All were well. Captain Brick states that the winter in the Arctic region has been extraordinarily long and severe, and he thinks that the chances of finding alive Bjorling and Kalstennius, the Swedish explorers, who started for the north in 1892, and the search for whom was one of the objects of the Peary relief expedition, are very remote.

The Peary relief expedition was sent out by the Philadelphia Geographical club. It is under the leadership of Henry G. Bryant. The other members of the party are Professor William Libby, Jr., of Princeton university; Geographer Professor T. C. Chamberlain of the University of Chicago, geologist; Dr. Axel Onlin of Sweden, zoologist; Dr. H. E. Wetherill of Philadelphia, surgeon; H. T. L. Bridgman of Brooklyn and Emil Disbitch of Port Royal, S. C., civil engineers. It left St. John on the steamer Falcon in the latter part of June, and its first stop was to be at Godhaven, Disko island, in North Greenland.

ELECTION IN VERMONT.

Republicans Carry the State by About 22,000 Majority.

BURLINGTON, Vt., Sept. 5.—The election yesterday passed off quietly. Of the 669 towns heard from W. A. Woodbury, Republican candidate for governor, has a majority of 22,000.

If the remaining towns to be heard from give as large a Republican vote as in 1892, the majority will be over 26,000, and if there is a proportionate gain in the towns it will give a majority of 28,000, the largest ever given a governor. The vote so far indicates a gain of 7,000 in the Republican vote over 1892, and a gain of 12,000 over the vote of 1890.

Democrats Make a Clean Sweep.

LITTLE ROCK, Sept. 5.—Returns from elections are still coming in slowly, but sufficient information is at hand to show that the Democrats have made a clean sweep. Several counties heretofore Populist or Republican went Democratic by small majorities. The Populist vote was much smaller than two years ago, some of the third party voters having returned to the Democratic ranks.

Colored People Indignant.

CHILLICOTHE, O., Sept. 5.—When colored children applied for admission at the western school building yesterday morning, they found the gates guarded, and all were excluded. This was due to orders given by the school board. The colored people are very indignant.

Congressional Convention.

SANDUSKY, O., Sept. 5.—Ex-Congressman William E. Haynes was nominated by the Democracy of this district yesterday to succeed Mr. Hare, the present incumbent. Mr. Haynes' nomination was the result of a bitter fight between Hare and Boston G. Young.

Seven Persons Shot For Conspiracy.

KINGSTON, Jamaica, Sept. 5.—Seven persons were summarily shot in Hayti on Saturday for alleged conspiracy against the life of Mme. Cauchier, the favorite daughter of President Hippolyte. The press censorship is rigorously enforced in Hayti.

Stebel Stole Away.

Hints For the Table.

Rapid eating is slow suicide. Mere gratification of the appetite is very likely to shorten life. Dinner should be of a lighter nature in summer than in winter. A quart of wheat contains more nutriment than a bushel cucumbers. It is not good to dine when in a state of mental or physical weakness.

Two pounds of potatoes contain as much nutriment as thirteen pounds of turnips.

Abuse of the stomach at dinner will be repaid sooner or later by that punishment which comes to the glutton.

Vegetables and fruits are to be used most generously at that season of the year in which they naturally mature.

Beginning the dinner with soup is the very best way to get the whole system in condition for assimilating a hearty meal.

Christianity Rules the World.

Mohammedanism has won 200,000,000 followers, and its degraded and wretched myriads are confined to Southern Asia and Northern Africa. Christianity, after nineteen centuries of life, has won 400,000,000 followers, and, with the exception of China and Turkey, its happy and enlightened people rule the world.

The progress of Christianity in Mexico is slow, but in 1892 there were 469 Protestant congregations, 177 foreign workers, and 512 native assistants. Mexico contains 50,000 Protestants, and there are 10,508 scholars enrolled in Protestant Sunday schools. Eleven Christian papers are published, and the Christian press of Mexico have sent forth more than 75,000,000 pages.
